

QODA

Big on Ideas.
Serious about Impact.

Hello. We're Hiring.

Role: Senior/Principal Sustainability Consultant

Purpose:

The role will work with employees and support the business in the delivery of its aims and objectives, and deliver creative and innovative design solutions in building services. The role will also provide line management support, and will be responsible for project design management as well as client relationships.

Reports to: Head of Sustainability

Location: London

Your role:**Leadership**

- Lead and deliver commercially successful projects including support the production of fee proposals, forecasting, project performance, and invoicing
- Manage and prioritise the workload of a project team to maximise resource utilisation
- Provide technical leadership and mentorship to junior team members
- Develop and implement net zero carbon, climate resilience, and circular economy strategies

Business Development

- Be an integral part of the growth of the sustainability/MEP business and help shape QODA's strategic transformation
- Support business growth through business development by identifying new opportunities, developing strategic partnerships, and expanding our client base

Project Delivery

- Effectively delegate, manage and review work undertaken by others
- Advise on sustainable building design, operational efficiency, and materials selection
- Lead sustainability workshops, presentations, and stakeholder consultations
- Developing net zero carbon roadmaps and decarbonisation pathways
- Coordinate and collaborate with QODA's other service offerings promoting a transdisciplinary approach to projects
- Lead the delivery of environmental assessments (such as BREEAM, WELL, NABERS UK) from early design stages through to completion
- Support the drive towards realising net zero whole life carbon in our projects

Technical Competencies

- Building Regs - undertake compliance including Part L, Overheating (TM52, TM59)
- GLA Requirements - fulfilment of GLA/Local Authority requirements including conducting whole life carbon assessments and circular economy statements in the production of and support of planning submissions
- Proficiency in building performance modelling tools such as IES VE, One Click LCA etc.
- Decarbonisation – carry out decarbonisation audits for existing buildings and provide recommendations based on carbon performance data analysis
- Understanding of the application of renewable energy systems - performance and technical viability

Desirable

- Accreditation - BREEAM Assessor/AP, NABERS UK Assessor, WELL AP etc.
- Chartered Environmentalist (CEnv) or similar professional accreditation
- Experience with ESG strategy development and climate risk assessments.
- Knowledge of digital tools and data visualisation platforms (e.g., Power BI, Tableau)

Don't meet every single requirement?

Studies have shown that women and people of colour are less likely to apply for jobs unless they meet every single qualification. At QODA, we are committed to building a diverse, inclusive and authentic workplace for everyone. So, if you are excited about one of these roles but your experience or qualifications do not match the job description exactly, we encourage you to apply anyway. You might just be the right person for our growing business in this role or another one.

We're offering the following:

- A competitive salary
- Pension with 8% company contribution
- 25 days paid annual leave
- Optional private healthcare insurance
- Death in service insurance
- Payment of one professional membership subscription
- Cycle to work scheme
- A hybrid work environment
- Electric vehicle purchase scheme
- Excellent opportunities for career growth
- Continued personal development and training
